Handy Person

Various WRSFV Buildings

The Women's Resource Society of the Fraser Valley provides several Shelters and Support Services to Women and/or their Children who have experienced abuse in any form or are in need of our services. Services include Individual and group counselling for women, children and teens; high-risk pregnancy outreach, transition housing, second stage housing, drop-in centre and Fronya Thrift Boutique Store.

The Women's Resource Society of the Fraser Valley provides shelter and support services to women who have experienced abuse, and their children. The Women's Resource Society also provides group and individual counselling to children who have witnessed abuse, information and support to high-risk pregnant women through our Pregnancy Outreach Program, support and advocacy regarding custody and access and income assistance issues. We provide second stage supportive housing to women and children from the Mission and Abbotsford communities. Two new projects, Taulbut House and Penny's Place, also provide shelter to women who are working to rebuild their lives.

The addition of so many new residential services has left us with an urgent need for support in building maintenance.

We are looking for a number of volunteers who may have experience in one, or all of the following:

- basic construction
- plumbing
- electrical
- painting (interior and/or exterior)
- stucco repair
- gardening
- landscaping
- renovating/decorating rooms
- window cleaning.

There are many benefits to volunteering such as knowing that you are helping others - sharing your skills to enhance and improve services for the betterment of the Abbotsford and Mission Community.
